

**OVER HET PRODUCT**

This pallet truck with a rubber steering wheel and polyurethane fork wheels has a manual drive function and a manual lift function.

**VOORDELEN**

Say goodbye to back pain; this hand pallet truck takes care of all the hard work  
Ergonomic handle  
Overload valve for added safety and protection

Nose wheels make it easy to position pallets  
Small turning circle for increased manoeuvrability  
Steel pallet truck

**BESCHRIJVING**

A pallet truck, also known as a pallet jack, makes transporting and lifting loaded pallets easy and efficient. This pallet truck also weighs the goods, enabling a smooth and productive workflow. This yellow standard pallet jack has a simple and reliable hydraulic system with built-in automatic neutral position valve. As well as sturdy, rounded forks and a strong tiller arm, this pallet trolley features an ergonomic steering handle that lets the operator work comfortably. Just a few pushes on the button. That's all it takes to quickly and efficiently lift pallets off the ground thanks to the electric pump. It's time to work smarter, not harder. Time to raise productivity levels with this manual pallet truck. It will lift, lower and transport pallets swiftly around the warehouse or store. A cost-effective solution to every logistic problem. This pallet truck has a rubber steering wheel. Rubber wheels are frequently used for industrial applications, making them popular in warehouses, workshops and the transport sector. They're silent, roll easily and thanks to metal cores, they offer a long lifespan. It's the perfect blend of features to ensure the smooth transportation of delicate goods and fragile items, even on uneven surfaces. With polyurethane fork wheels, this pallet truck is great for a large range of indoor and outdoor applications. Suitable for use on both hard and soft surfaces, these wheels are highly shock-absorbent and whisper quiet. They're also tough and wear-resistant, so small bits of debris on the floor aren't a problem. Thanks to the low rolling resistance of polyurethane steering wheels, this pallet truck is very efficient. This pallet truck is made of steel. It's tough, durable and commonly used for transporting goods in warehouses.

**SPECIFICATIES**

Type bediening	manueel
Type pallettruck	standaard
Laadvermogen (kg)	2500
Zwaartepunt (mm)	575
Type pomp	standaard
Rem aanwezig	NEE
Kleur van de pallettruck	geel
RAL kleur	RAL1003 (signal yellow)
Minimale hoogte (mm)	80
Hefhoogte (mm)	200
Maximale hoogte (met handvat) (mm)	1240
Totale lengte van de pallettruck (mm)	1550
Lengte van de vorken (mm)	1150
Lengte van de stuurinrichting (mm)	400
Centerafstand (mm)	327
Dikte van de vorken (mm)	48
Totale breedte pallettruck (mm)	540
Breedte van de vorken (mm)	160
Gesloten vorken	NEE
Breedte over de vorken (mm)	540
Breedte tussen de vorken (mm)	220
Minimale gangbreedte (mm)	1750
Aantal vorkwielen	4
Materiaal van de vorkwielen	polyurethaan
Materiaal van het stuurwiel	rubber
Materiaal van de pallettruck	staal
Materiaal van de pomp	geschilderd staal (gegoten)
Elektrisch rijdend	NEE
Ingebouwde lader	NEE
Klaar gemonteerd	NEE
Model	trp0007
Gewicht (kg)	71
