Funktionalität
www.plusxaward.de

· Simple, reliable and flexible handling
· Individually combinable components
· High-quality and robust materials
· Compatible with the L-BOXX® system
· Integration into the Sortimo in-vehicle
equipment systems

ProClick is changing the way professional craftsmen carry their tools.

The ergonomically padded Tool Belt or simply your own belt forms the basis - the ProClick holder is the heart and hub of the system. Unique: awkward threading and unthreading of the belt is a thing of the past thanks to ProClick. If necessary, the holder can be removed in no time at all or fastened to the belt with the clever quick-release system.

Click and go
The ProClick system

• Unique mobility system with guaranteed one-hand operation

• Robust and tear-resistant material

• Safe transport due to simple and intuitive click connection

• Quick access to all tools and consumables and still have your hands free

• Flexible, clear and tidy storage

• More safety through reflective safety strips

CLICK UNIT

HOLDER

The various tool bags, flexible storage solutions and robust holders, which are equipped with a so-called ClickUnit, can be clicked into place and firmly connected to the holder with a single movement. So you always have everything at hand and still have your hands free.
